RE: Freedom of Information Act Request
EPA-R5-2019-003530

Dear Mr. Voelker:

This letter responds to your Freedom of Information Act (FOIA) request dated February 15, 2019. You requested from the U.S. Environmental Protection Agency (EPA) all detailed electronic documentation of EPA violations (including both Clean Water Act and the Safe Drinking Water Act) for FRS ID 110040433395 – Dairyland Power Coop Norswiss Gen Station; FRS ID 110050575436 – Norswiss Farms Inc.; PWS ID #WI6030024; and NPDES ID#WI0059340. Specifically, you requested documentation of enforcement actions, failed monitoring and inspections, and investigations not resulting in notice of violations, including reports of specific numeric values that exceed thresholds and any photographic or video evidence.

This response covers documents maintained by the EPA Region 5 Water Division. Other Divisions or Offices within EPA will provide a separate response. The Water Division has searched our paper and electronic files and found that EPA's electronic Enforcement and Compliance History Online database (ECHO, available at <https://echo.epa.gov/>) provides information on noncompliance and state actions on these facilities in its detailed facility reports (by clicking on the "go to Enforcement/Compliance Details" link). In addition, the Wisconsin Department of Natural Resources Drinking Water System has a great deal of information on Wisconsin's public water systems (PWSs), including links to each PWS's annual consumer confidence report. Data on each PWS in your request may be accessed by the PWS name at [https://prodoasext.dnr.wi.gov/inter1/pws2\\$.startup](https://prodoasext.dnr.wi.gov/inter1/pws2$.startup). Any public notices that were issued by the PWS would be available from the Wisconsin DNR. The Water Division does not have any further information responsive to your request for all detailed electronic documentation of EPA violations for FRS ID 110040433395 – Dairyland Power Coop Norswiss Gen Station; FRS ID 110050575436 – Norswiss Farms Inc.; PWS ID #WI6030024; and NPDES ID#WI0059340, since none of these systems have been referred to EPA by Wisconsin DNR for federal enforcement action.
